

Titan Florida  
11000 NW 121 Way  
Medley, FL 33178  
(800) 458-4250

This is to certify that Titan America® Type I/II Portland Cement, manufactured by Titan Florida, complies with the requirements of the American Society for Testing and Material ASTM C-150 for Type I and II and also with AASHTO M85 Type I and II specifications.

This is to certify that Titan America® Type I/II Portland Cement is manufactured at Titan America's Pennsuco Plant in Medley, FL. In addition, limestone mined for the purpose of cement manufacture is produced from the aggregate mines at Titan America's Pennsuco Plant in Medley, FL 33178.

Portland Cement Type I and I/II are made from raw materials that include 14.62% post-industrial recycled content material, 9.55% bottom and fly ash and 5.07% copper slag respectively.

If we can be of any further assistance, please contact us at (800) 226-2057 or at [www.titanamerica.com](http://www.titanamerica.com).

Sincerely,

A handwritten signature in cursive script that reads "Victor Turiel".
